Have you ever stopped to reason why it is that so many products that are ex-tensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain-the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who bave been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent resuits, as many of my customers testify.
